SECURITY SIGNS & STICKERS

The United States Coast Guard and the International Maritime Organization (IMO) require security signs be posted aboard all ships and at port facilities. Our security signs will keep you in compliance.

6

IMO / PHOTOLUMINESCENT

Our photoluminescent signs are made of the highest quality material in the industry and exceed the standards set forth in IMO A.752(18), ISO 15370, and DIN 67 510 Part 4.

11

VESSEL SAFETY SIGNS

Outfit your entire vessel with our Complete Vessel Safety Signs Package! This set of 47 stickers is individually printed on one vinyl sheet. Also sold individually - available in self-adhesive vinyl (aluminum upon request).

15

OSHA HEALTH AND SAFETY SIGNS

Moxie Media's OSHA Health & Safety Signs communicate workplace safety requirements, and ensure that each sign is presented in a manner that can be perceived and understood by all employees.

26

SUBCHAPTER M SIGNS

Moxie Media has developed the newly required signage to maintain compliance with the new 46 CFR Subchapter M Final Rule: Inspection of Towing Vessels.

QUALITY IN PHOTOLUMINESCENCE

MANUFACTURED FOR MARINE AND OFFSHORE APPLICATIONS

Moxie products meet the highest specification and are fully accredited by third party testing and have achieved the Lloyd's Register Type Approval certification for marine, offshore, industrial and commercial applications for safety signs and escape route illumination.

Moxie's Photoluminescent materials can be activated at very low light levels of 25 lux. In the event of power failure or in a situation where smoke obscures ceiling lights, our photoluminescent materials provide exceptional brightness immediately. This initial brightness combined with the optimum longevity performance of our photoluminescent materials makes it the perfect material for safety products ensuring safe evacuation in a any environment.

SIZES INCLUDE:

150 x 150mm

150 x 75mm

MATERIAL OPTIONS INCLUDE:

Self-Adhesive Vinyl:

Flexible gloss vinyl material, employing an emulsion based, UV resistant, permanent adhesive with high initial tack and adhesion. Available in a selection of colors and can be specified with a reflective finish if required.

Rigid PVC:

Opaque rigid white gloss PVC material. In addition to excellent chemical resistance, it has high tensile strength, good impact strength and dimensional stability with low thermal conductivity making it ideal for exposed outdoor locations.

FLOOR MARKING TAPE

AN AFFORDABLE ALTERNATIVE TO PAINT

33 x 50mm

Adhesive floor marking tape is a durable self-adhesive PVC tape for floor marking, lane marking and hazard warning. This heavy duty self-adhesive marking tape is available in a range of clearly visible colors and striped chevrons.

25m x 50mm

Self-adhesive reflective marker tapes can improve safety during night time, blackouts and poor visibility.

45.7m x 50mm

Solas retro reflective tape was created to enhance visibility of life saving equipment, increasing detection during night search and rescue missions and in poor visibility.

PHOTOLUMINESCENT SELF ADHESIVE TAPES

For large complex areas, escape routes, escape route doors, ramps, small enclosed space, corridors and handrails within enclosed stairways.

BARRIER TAPE

500m x 75mm

Non-adhesive chevron barrier tape, ideal for prohibited, no entry and warning areas.

SUBCHAPTER M SIGNAGE REQUIREMENTS

46 CFR Subchapter M regarding the **Inspection of Towing Vessels** became effective on July 20 2016. The new rule contains new and additional requirements for signage aboard these inspected vessels.

Moxie Media has developed the newly required signage to maintain compliance with the rule. These “Sub M” signs compliment the Moxie maritime signs already ready existing in our portfolio.

*Custom versions can also be created upon request.
